Executive President Message

Shri. B. G. Jadhav

Executive President
MMM, Pune

Greetings!!

Our country had made tremendous progress in the field of education and adult literacy in the past few decades. As an institution involved in the aforementioned sector, we have been able to make our humble contribution to this noble task of nation building. It is indeed a matter of great satisfaction. Marathwada Mitra Mandal was formed with the intention of bringing the underprivileged masses, especially from the rural and remote areas of Maharashtra, into mainstream education. The management aspires to make quality education and mainstream classrooms available to maximum number of students.

MMCC, is the oldest amongst the sister institutes under the wings of Marathwada Mitra Mandal. Its growth and journey thus far has been challenging and fascinating. In spite of several teething problems and stiff competition, the college has carved a niche for itself in Pune city. This has been possible due to immense emphasis on student centric approach and a strong team of dedicated and competent teachers and staff. The management encourages thorough professionalism and transparency. We are indebted to our students, parents and stakeholders whose endorsement has contributed to the meteoric rise of the college. Today, the college has 5000+ students enrolled in different courses. We have diversified from being only a commerce college in 1986 to an education hub in 2021, offering a bouquet of academic opportunities to our students.

Marathwada Mitra Mandal is also actively involved in several social initiatives. Our campuses provide a platform to the young generation, where they can pick up and contribute towards various social, environmental and cultural causes.

As the National Education Policy rolls out, the focus has shifted to interdisciplinary learning. The onus of successful implementation of the policies and learning outcomes would largely depend on our teachers and educational institutions. Marathwada Mitra Mandal intends to educate and enhance the skill set of its teaching and non teaching staff. We are committed to create a robust institutional architecture to support the vision of NEP. It would be our endeavor to ensure that all our stakeholders experience quality and excellence at every stage of their association with the institute.

The youth of our country, are a national treasure. It's our prime objective to groom them into worthy citizens.
