11th July 2024

Report on Poster Making Competition  
World Population Day  
Topic- "To raise awareness about sustainable living"

On the occasion of **World Population Day**, the Department of Commerce had organized

a poster making competition in order to raise awareness about sustainable living. The primary objective of the competition was to highlight the significance of World Population Day, observed annually on July 11th, and to stimulate discussions on population-related challenges and opportunities for sustainable development.

The posters depicted the impact of rapid population growth on natural resources, highlighting the importance of sustainable consumption and resource management. Many posters emphasized the role of accessible healthcare and education in empowering individuals, particularly women, to make informed choices about family planning. Participants illustrated the interconnectedness between population dynamics and environmental challenges, advocating for conservation efforts and eco-friendly practices. The competition received an overwhelming response from the students and successfully created awareness about World Population Day.
