Department of Computer Application

Alumni Interactive Session on “Current IT Trends & Cloud Technologies”

1. **Nature of the event:** Alumni Interaction
2. **Title of the event:** Current IT Trends & Cloud Technologies
3. **Organized by:** Department of Computer Application
4. **Date:** Saturday, 13th September 2025
5. **Time:** 11:00 AM – 12:30 PM
6. **Venue:** Hall number 4
7. **Resource Person:** Priyanka Gawas/
8. **Objectives of the Program:**

The primary objectives of conducting this session were:

 1. Career Growth Opportunities and Future Prospects.
 2. To introduce to students with upcoming technologies and how to progress in the field..
 3. To share their insights and success stories with freshers to make them aware of the academic and extra academic activities for overall development.
9. **Audience:**

The session was arranged for students of **TY BBA(CA)**.
10. **Number of Participants:**

A total of 58 participants actively attended the session .
11. **Brief description of the event:**

The alumni speaker **Ms. Priyanka Gawas** shared her experiences from the professional world and highlighted the importance of adapting to rapid technological changes.

The session covered topics such as advancements in Artificial Intelligence, Big Data, Cybersecurity, Cloud Computing, and IT automation. Special emphasis was placed on how cloud platforms like AWS, Microsoft Azure, and Google Cloud are transforming the business landscape by providing scalable, secure, and cost-effective solutions.

Students actively interacted with the alumnus by asking questions about career opportunities, industry expectations and the skills required to succeed in the IT domain. The interactive nature of the session made it insightful and engaging. An alumni of BBA(CA) interacted with students and provided guidance on the essential skills required to succeed in the industry, as well as the latest technologies to focus on. She offered valuable insights on how to build a strong digital presence to attract high-paying job opportunities. Her suggestions included writing technical blogs, uploading code to GitHub, contributing to online communities, and actively engaging in knowledge-sharing platforms. Overall, the Alumni Interactive Session was highly beneficial as it broadened students' understanding of emerging IT trends and encouraged them to prepare for future challenges in the technology sector.

12. Learning Outcome:

- Students gained awareness of current IT trends and industry practices.
- They understood the fundamentals and applications of cloud technologies.
- The session provided clarity on career opportunities in cloud computing and related domains.
- The interaction with alumni helped bridge the gap between academic learning and real-world applications.

13. Photographs:

14. Feedback:

Students mentioned Alumni acted as recruiter which made them gain realistic experience. The student expressed a mix of technical, situational, and behavioral questions challenged for better preparation for real interviews.
