**Report on “Industrial Visit to Cotton King & Nandan Milk Dairy, Baramati”**

**Nature of the event:** Educational / Industrial Visit

**Title of the event:** Educational Visit to Cotton King factory at Baramati Hi Tech Park Ltd and Nandan Milk Dairy, Baramati.

**Organized by:** Department of Commerce

**Date:** 04th March, 2026

**Time:** 6.30 am - 8.00 pm

**Venue:** Baramati

**Resource Person:** Officials from Nandan Milk Dairy and Cotton King

---

**Objectives of the Program:**

- To connect classroom concepts of production, quality control, and management with real industrial operations.
  - To observe how milk is collected, processed, pasteurized, and packaged in a dairy industry.
  - To understand the quality standards, hygiene practices, and safety procedures followed in dairy processing and garment production.
  - To observe organizational structure, labour management, and production planning in both industries.
- 

**Audience:** SY B.Com Students

**Number of Participants:** 45 (41 Students and 4 Faculty Members)

---

## **Brief Description of the Event**

An industrial visit to Nandan Milk Dairy was an informative and practical learning experience for students. Nandan Milk Dairy is one of the well-known dairy processing industries at Baramati involved in the production of various milk and milk-based products such as pasteurized milk, buttermilk, ghee, paneer, and flavored milk. The dairy focuses on maintaining quality, freshness, and safety in all its products while supporting local farmers by purchasing milk directly from them. The students got information about how the milk and dairy products are packed using automatic packaging machines in hygienic conditions. The packaged products are then stored in cold storage units to maintain freshness until they are distributed to markets and retailers. The industrial visit to Nandan Milk Dairy was highly educational and helped us understand the practical aspects of the dairy industry.

The visit to Cotton King Garment Factory helped students understand the functioning of the garment manufacturing industry. The visit provided practical knowledge about clothing production, quality control, and factory management. During the visit, the factory staff welcomed the students and gave a short introduction about Cotton King, its history, and its specialization in manufacturing men's clothing such as shirts, trousers, and casual wear.

The students were then taken through different sections of the factory. First, they observed the fabric cutting section, where large pieces of cloth were cut into required patterns using advanced cutting machines. After that, the students visited the stitching section, where skilled workers used sewing machines to assemble the garments.

Next, the students saw the quality checking department, where each garment was carefully inspected to ensure proper stitching, correct size, and finishing. After inspection, the clothes were sent to the ironing and finishing section.

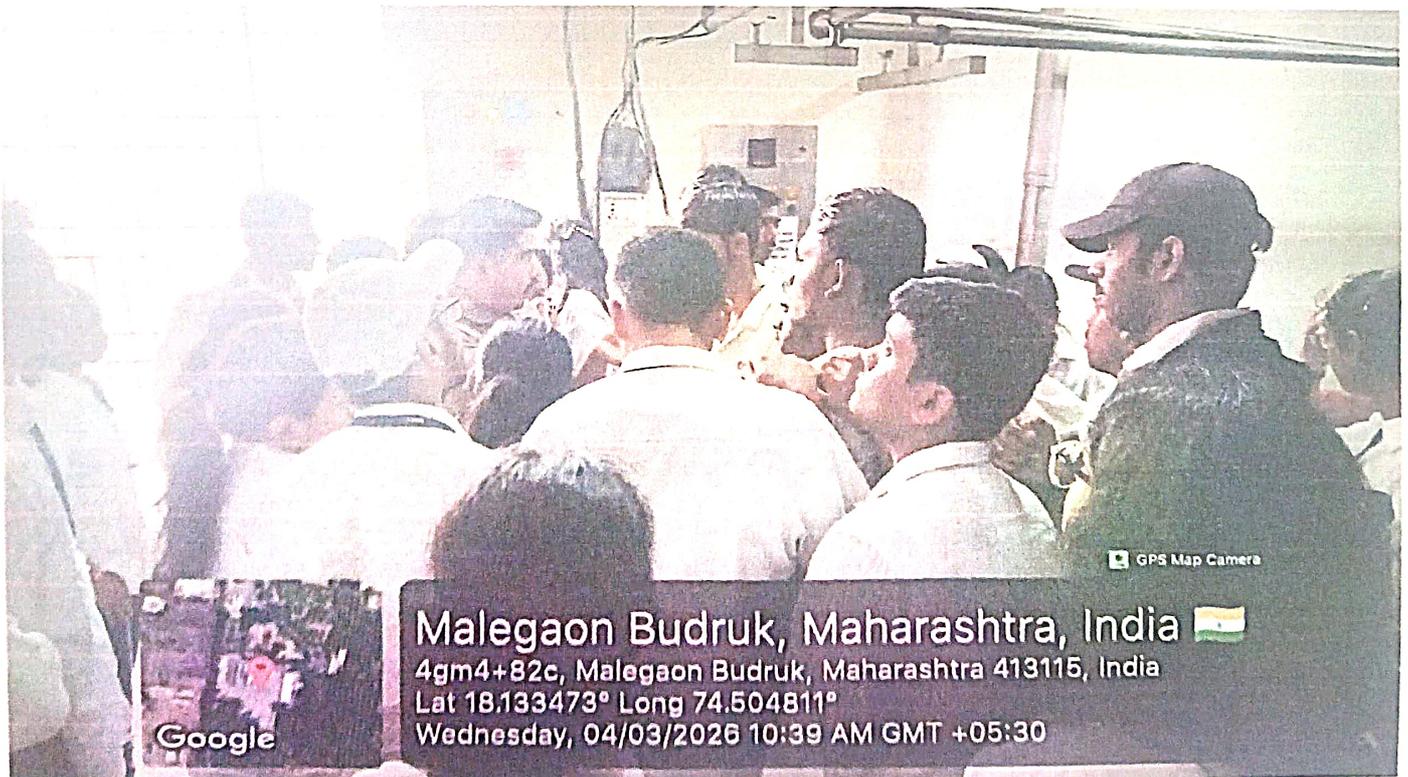

---

### **Learning Outcome:**

- The students learned about quality testing of milk such as fat content, purity, and acidity checks.
  - Gained knowledge of milk processing techniques including pasteurization and standardization.
  - Understood the importance of hygiene, sanitation, and food safety standards in dairy industries.
  - Learned about automatic packaging, cold storage, and distribution systems used in the dairy.
  - At Cotton King the students observed different departments such as fabric cutting, stitching, finishing, and packaging.
  - Understood the role of machinery and skilled workers in garment production.
  - Gained knowledge about quality control and inspection in the clothing industry.

---

**Feedback:**

Students found the visit highly educational and insightful. They appreciated the opportunity to observe real-life applications of technology and practices in the dairy industry and textile industry. The students gained knowledge about milk processing techniques and quality control and inspection in the clothing industry.

---

**Acknowledgement:**

I extend my sincere gratitude to Principal Dr. Kishor Nikam Sir for providing this valuable opportunity and for his constant support. Special thanks to the HOD, Dr. Ganesh Patare Sir for his initiative, planning, and guidance in organizing the visit successfully. The cooperation of all faculty members and students is also gratefully acknowledged.
