Workshop on "Kokedama Preparation"

The Green Club is organizing a **Workshop on "Kokedama Preparation."** Kokedama is a Japanese gardening technique in which a plant is grown in a ball of soil covered with moss instead of a traditional pot.

The workshop aims to promote **environmental awareness, creativity, sustainable gardening practices, and hands-on learning** among students. Participants will get an opportunity to learn the basic technique of preparing and maintaining a Kokedama.

Workshop Details

Day & Date: Saturday, 3rd October 2026

Time: 9:00 AM

Venue: Hall No. 3, MMCC

Organized by: Green Club, MMCC

All interested students are encouraged to participate actively in this hands-on workshop and learn an innovative and sustainable gardening technique.
